iVi

Intelligent Pendant with Fall Detection

The iVi Intelligent Pendant with fall detection works with Vi+ or CEL Personal Emergency Response Systems, replacing the standard personal activator. The iVi features a standard help button with automatic fall detection technology.*

By pressing the button on the pendant, a help call is generated through the console unit and sent to the 24-hour Emergency Response Center (ERC). The ERC operator communicates with the subscriber through the console's loudspeaker and microphone to determine the nature of the call and the appropriate course of action.

Built-in automatic fall detection senses when the subscriber has fallen and triggers a call to the ERC.* The iVi is the only product of its kind to feature a not-worn alert, which will notify the ERC if the iVi has not registered movement for a period of time.**

Connected and Protected

Recognizing that people rely upon us 24/7, our Emergency Response Center (ERC) is built with the most advanced infrastructure of equipment to optimize response time and improve service reliability.

If you cannot speak or be heard, our Emergency Response Center knows who you are and who to contact.

When you enroll, a personalized file is created in our HIPAA compliant, secure database containing all critical information. This information is immediately displayed so that a trained operator can respond quickly to assist you.

- 24/7/365 Emergency Response Centers
- Over 50 years experience in remote care and safety monitoring
- Two US-based Emergency Response Centers
- Over three million subscribers monitored worldwide
- Notification to emergency responders, caregivers and/or family
- 140 languages available at our Emergency Response Centers
- Highly trained and qualified Emergency Response Center operators
- Providing peace of mind for those in need

When seconds count, the iVi Intelligent Pendant with Fall Detection can make a vital difference. According to the New England Journal of Medicine, getting help within one hour after a fall improves survival rate by more than 90%.

When you need help, press the iVi intelligent pendant.

The two-way voice console dials the 24-hour Emergency Response Center. Emergency Response Center operator speaks with you over the console to decide upon proper action.

Emergency Response Center operator coordinates the appropriate responder - emergency services, caregiver, family member, or neighbor.
